

HEALTH EQUITY IMPACT ASSESSMENT

Is your CON application process aligned with the NY State Health Equity Impact Assessment requirement?

STREAMLINE YOUR CON APPLICATION

Maria D. Flowers & Associates provides a streamlined approach to a comprehensive Health Equity Impact Assessment Application meeting all NY State requirements.

Assessment Strategy

Our process is comprehensive, streamlined, and standardized to assess health equity impact at the organizational level and advance health equity impact across the state.

Experience

MDF & Associates has extensive experience in healthcare, public health, and health equity. Our assessments are performed under the clinical advisement of a physician public health expert, and through a collaboration with data science team.

Community Engagement

Our meaningful community engagement activities are conducted using mixed-method data collection and analysis. We provide ample time and opportunity to capture the voices of all stakeholders.

About Us

MDF & Associates has been in business for over fifteen years, adopting the name MDF & Associates in 2021. MDF & Associates helps organizations provide the populations they serve with more safe and more equitable care. Our clients range from healthcare systems to individual hospitals, specialty clinics, and large-scale consulting firms.

Why Choose Us

- ✓ Our Health Equity Impact Assessments are conducted under the advisement of a physician ensuring a medically informed approach to evaluating health disparities
- ✓ We collaborate with data scientists to foster a synergy between community engagement and advanced analytics to comprehensively analyze health equity data.
- ✓ We use established frameworks, to guarantee an evidence-based approach to equity evaluation.
